

THE ENGLISH INTERNATIONAL SCHOOL OF ISTANBUL

We are delighted to announce an international honour for **TEIS** from **Oxford** and **Cambridge** Universities.

This year Oxford and Cambridge Universities, two of the oldest and most prestigious centres of learning in the world, collaborated on an historic research project. Their aim was to produce a global review of education and skills. The two Universities conducted a rigorous global research project to find centres of excellence in education and training. They then invited a very small number of schools to be included in their publication: **Global Education and Skills an Oxbridge Guide**. All at TEIS were truly honoured to be selected as one of only 48 schools worldwide to be included the **International Section** of the guide, which aims to disseminate good practice and “put students at the heart of promoting educational excellence.”
